

AROUND THE HALLS

MAY 2018

NEW TEACHER HIGHLIGHTS:

Mr. Don Orelup is in his 1st year of teaching. He teaches 6th grade math at Cuba Middle, works with the Science Olympiad team, and coached football. Prior, he earned his elementary education degree with a minor in Psychology. Currently, he is working to complete his Master's program.

Mr. Orelup enjoys all types of sports. In fact, he enjoys wakeboarding and once played ice hockey. While he has spent endless hours grading and planning lessons this year, he finds time to spend with his 2 hounds.

Don is very active. He enjoys traveling and exploring new places. His mom and dad live in the St. Louis area while his younger brother attends the University of Iowa.

BUILDING HIGHLIGHT:

In order to promote hometown pride and teach American History, the 8th grade took their 3rd annual walking trip through Cuba. Our first stop was a short visit to the 1908

jail. The students were able to see where a prisoner was incarcerated. Several volunteers from Viva Cuba met our students at the murals to explain the history behind each picture.

Dr. Ben Brown visited the 8th Grade students during their history classes prior to our visit to the History Museum and exhibited artifacts from Westward Expansion. The Historical Society volunteers opened their doors to our students and let them enjoy a hands on experience. The local library shared their own history and their transition to the Crawford County library System before telling students about the services they offer.

This year we added the Osage Trail Legacy Monument and with the help of local experts the students were able to learn about our local Native history.

The students had a fantastic day that was both educational and enjoyable!

DISTRICT HIGHLIGHT:

Summer school 2018 dates are set for May 23rd through June 26th. Summer Journey curriculum and activities are planned for students K-8. New this year, 1st – 6th grade students will be able to receive 50 minutes per day of math and/or reading remediation to hone necessary skills beyond the regular summer school curriculum.

Driver's education is an option this year for students who have turned 15-years old. CCR2 and Cuba High School administration

want to publicly thank Fairground Auto Plaza for providing a car for our students to use this summer! Credit recovery options also exist for students needing to stay on track to graduate with their cohort.

Student attending summer school will receive free breakfast and lunch. CCR2 is pleased to be part of the Missouri Health Department's Summer Food Service Program (SFSP). Not only are students attending summer school eligible to receive FREE breakfast and lunch but **anyone 18-years or younger in our district may also come for FREE breakfast (7:15-7:45 AM) and lunch (11:30-12:00).**

Enrollment is open through the final student day of the spring semester, May 17th. Summer School enrollment applications are available in each office or can be printed from the district website.
